

Pegasus are pleased to announce the release of its new “Vutek QS3220”...

Delivers the Print Quality and Speed your Customers Demand - Every Time.

The VUTEK® QS3220 UV-curing printer from EFI™ uses the latest hybrid large format digital technology, where your message will be clearer and more vibrant. With the highest resolution available to produce brilliant photographic quality images on both flexible roll and rigid material up to 3200mm wide x 50mm thick, it's easy to see why this technology outperforms the others for both indoor and outdoor display... all at affordable prices.
